## Version 2019

### Definition of Release Types

We define each release type as follows:

- **Major release:** A major release associated with an incremented release number (e.g. 2019) and an approximate 12 months' product cycle.
- **Minor release:** An update between major releases that may include support for new file formats, new versions of currently supported formats, and bug fixes. These updates are Service Packs (SP), and are defined with an additional incremented number put aside the major release information (e.g. 2019.1 for the first Service pack of release 2019)
- **Out of cycle patch:** An unscheduled update. These contain few functional updates with the intention to limit impact.

### Version Information

Item	Version Number
Tetra4D Automate	2019.0.x

Notice that the third number is used to differentiate builds of the software, and may not be continuous.

### Installation

This version can be installed over any prior installation of Tetra4D Automate. For more installation information, please refer to the Tetra4D Automate User manual.

### Language Support Overview

Tetra4D Automate supports English language.

### System Requirements

Please refer to the Tetra4D Automate User manual to access the system requirements.

## Updated formats support and Reader/Writer enhancements

This section outlines the CAD Readers and Writers that have been added or improved in this new Tetra4D Automate release.

### CAD Reader: ACIS

- Support for version 28.1

### CAD Reader: Autodesk AutoCAD

- Support for version 2019

### Writer: Html

- Tetra4D automate enables to generate Html files by converting an existing PDF document into an Html one. This function has been designed to support 3D PDF documents created by Tetra4D Enrich and Tetra4D Automate.
- All the content of the 3D PDF document such as 3D annotations, widgets, controls and the various types of interactivity are managed and maintained in the resulting HTML document.
- The HTML document can be viewed online or offline from any compatible web browser.

### CAD Reader: JT

- Support for version 10.2

### CAD Reader: Parasolid

- Support for version 31

### CAD Reader: Solid Edge

- Support for version 2019

### CAD Reader: SolidWorks

- Support for version 2019
